

I am writing to remind you that the Oklahoma Association of Health Care Providers (OAHCP), the American Health Care Association (AHCA), and the National Center for Assisted Living (NCAL) recommend HealthCare Interactive's CARES® online dementia care training programs and the Alzheimer's Association's® essentiALZ® individual certification program to train staff and to use as resources to help reduce the off-label use of antipsychotics.

CARES® is non-pharmaceutical based training that incorporates person-centered care strategies—including Health Care Interactive's trademarked CARES® Approach—throughout all of its CARES programs. In addition, individuals can become certified in Alzheimer's Association® essentiALZ® or essentiALZ Plus after completing CARES programs and passing certification exams. Access to the certification exams is included in the purchase of these programs:

- CARES® Dementia Basics™
- CARES® Dementia Advanced Care™
- CARES® Dementia-Related Behavior™
- CARES® Activities of Daily Living™
- CARES® End of Life Dementia Care™

CARES online dementia training programs are affordable and can be purchased individually, through one-year single site licenses or a 25-user multi-site package. As a member of OAHCP and AHCA/NCAL, you will receive 10% off any CARES purchase through HealthCare Interactive by entering **Purchase Code AHCA10** at checkout.

To see why CARES online dementia training programs are so popular with long term care providers, take a free [test drive](http://www.hcinteractive.com/testdrive) by visiting www.hcinteractive.com/testdrive. To [learn more](#) about HealthCare Interactive programs and products or place an order, visit www.hcinteractive.com.

Don't forget: Save 10% with Purchase Code **AHCA10**.

Sincerely,

Nico Gomez

OAHCP President and CEO
